TGIF Everyone.

Oh whatever,
Bring me a wine.

Men are like shots
of tequila.

The best ones are strong,
rich and can keep you up
all night.

What do you mean,
"I need to be more
proactive?"
Do you think this cocktail
made itself?

Wine pairs well
with food.

I pair well with wine.

Dear Wine: We had a
deal. You'd make me
funnier, sexier &
smarter. I've seen the
video. You lied.

If the glass is neither
half empty or
half full then it
requires more wine.

All I need is love.
And a tiara.
And some
chocolate.

Oh and wine,
lots of wine.

Of course size
matters.

No-one wants a
small glass of wine.

I'm a wine enthusiast.

The more I drink,
the more
enthusiastic
I become.

Girls just want
to have fun....

drinking wine.

To reduce stress
I do yoga.

Just kidding.

I drink wine
in my yoga pants.

I can make
wine disappear.

What's your
super power?

Placemats

We are just like the girls in
Sex and the City.
Minus all the hot men.
And the sex.
So basically, we just live in a city.

When a woman says "What?!"
It's not because she didn't hear you, it's
because she's giving you a chance to
change what you said.

I think this wine glass is
broken again.

It's empty.

You drink too much,
you swear too much, you dress like
a hooker from the eighties.
You are everything I ever wanted
in a friend.

If you have to ask if it's too early to
drink wine....

You're an amateur and we can't be friends.

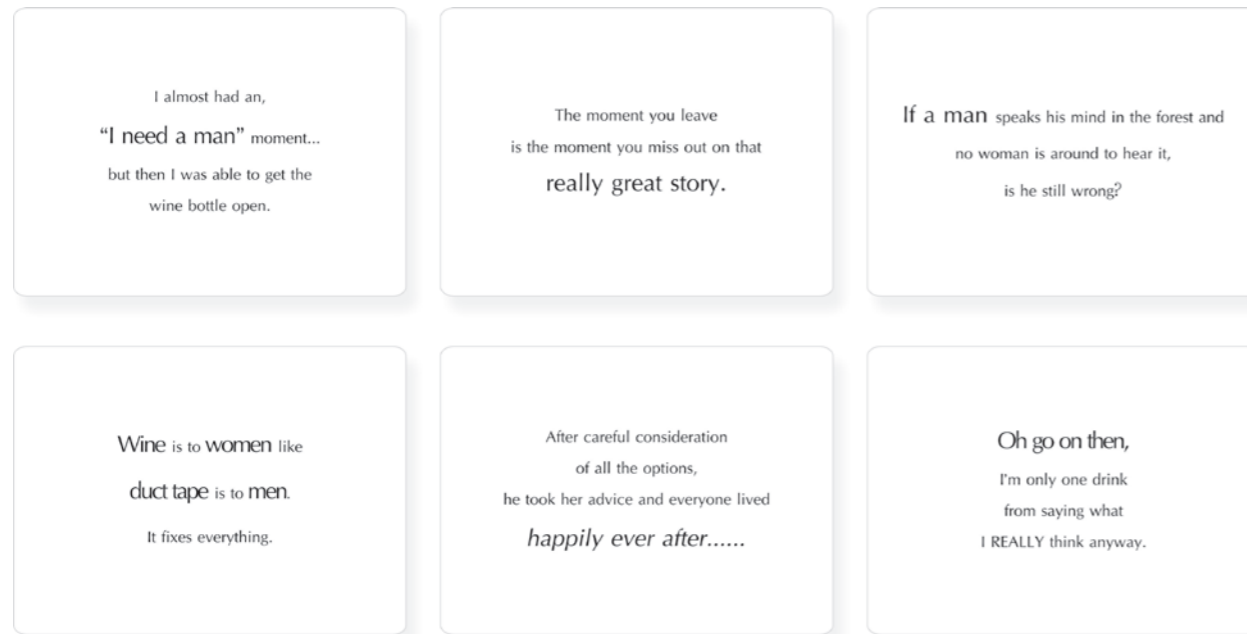

Good friendships should be built
on a solid foundation of
alcohol, sarcasm
and inappropriateness.

Table Placemats

I almost had an,
"I need a man" moment...
but then I was able to get the
wine bottle open.

The moment you leave
is the moment you miss out on that
really great story.

If a man speaks his mind in the forest and
no woman is around to hear it,
is he still wrong?

Wine is to women like
duct tape is to men.
It fixes everything.

After careful consideration
of all the options,
he took her advice and everyone lived
happily ever after.....

Oh go on then,
I'm only one drink
from saying what
I REALLY think anyway.
